Chemical Engineering

In August 1946 *Chemical & Metallurgical Engineering* was renamed *Chemical Engineering*. *Chemical & Metallurgical Engineering* was the successor to *Metallurgical & Chemical Engineering*, which, in turn, was a consolidation of *Electrochemical & Metallurgical Industry* and *Iron & Steel Magazine*. The magazine was originally founded as *Electrochemical Industry*.

McGraw-Hill Publishing Company, Inc., New York City

Volume 61

January to December, 1954

GENERAL ALPHABETICAL INDEX

A

- Absorption:**
Bubble-caps helped by performance data from experimental towers (N) (charts) May *128
Flexitray, G. C. Thrift (charts) May *177
Float-valve tray design, I. Earl Nutter (chart) May *176
How to design gas cooling towers, G. H. P. Bras Dec. *191
Kaskade trays threaten bubble-caps in towers (N) May *124
New ways to clean bubble-plate towers (P) Apr. *258
Sieve trays, D. C. Lee, Jr. (charts) May *179
Sorption in gas and air drying, F. M. Waterhouse (charts & tables) June *237
Tray designs (charts) May *173
Ultraviolet absorbers act as protective coatings and stabilizers July *154
Uniflux tray design, V. G. Bowles (chart) May *174
Work recovered in gas absorption (P) Jan. *266
Accounting—Computers—save time, money, Ascher Opler Oct. *197
Acetic acid—Polyvinyl acetate paint booming June *383
Acetic anhydride—Courtaulds turning acetic anhydride from acetone (N) Feb. *114
Acetylene:
BASF acetylene plant—partial oxidation of methane to acetylene (N) Dec. *118
Derivatives plant being built at Calvert City, Ky., by General Aniline & Film Corp. (N) June *114
Partial oxidation of methane as developed in Germany available for license (N) Nov. *116
Acids:
Aldic liquids processed by continuous neutralization process (N) Aug. *128
Citric acid made by fermentation (N) May *120
Modified fatty acids being made by Emery Industries May *152
Oxalic acid flowchart Apr. *340
Redwood bark extract Apr. *158
Way to new monobasic acids (N) Oct. *136
Acrylics—Carbide & Carbon ups production of acrylic esters (N) Sept. *122
Methacrylate polymers for oil sludge prevention June *148
Acrylonitrile—How you can purify acrylonitrile Nov. *280
Adhesives:
Bonds copper to plastics Apr. *160
Plywood and furniture use Mar. *142
Pressure adhesives Jan. *138
Structural adhesives Sept. *154
Teflon adhesive June *152
Adsorption:
Chemical engineering fundamentals, T. E. Corrigan, Catalysis and adsorption Pt. 1 Nov. 194 Pt. 2 Dec. *260
Chromatography comes of age, Sept. *159
Selective adsorption, George Karnofsky (charts) Sept. *159
Sorption in gas and air drying, F. M. Waterhouse (charts & tables) June *237
Aerosols—Boost carbon black production (chart) June *238
Agglomeration—How and why solids agglomerate, Carl Ludwig Jan. *156
Agitation—How to improve agitation of heavy pulp suspensions, R. W. Moore (P.N.) Mar. *238
Agricultural Chemicals:
Animal feed from sewage (N) May *372
Inventory of new chemicals and materials (table) Mid-Sept. *94
Inventory of new plants and facilities (table) Mid-Sept. *44
New plants and facilities under way 1953—report (table) Jan. *170
Silvex for killing weeds and brush May *160
Air conditioning—Sorption in gas and air drying, F. M. Waterhouse (charts & tables) June *237
Alcohol:
Furfuryl alcohol process may benefit plastics (N) Dec. *124
Gulf Oil Corp.'s iso-octyl alcohol unit at Port Arthur, Tex., completes year of operation (N) Aug. *113
How you can separate alcohols from ketones Oct. *254
Isopropyl alcohol impurities removed by high-pressure distillation Feb. *262
Synthetic ethanol at Tuscola plant (N) May *380
Alfalfa—Antioxidant helps keep carotene in alfalfa meal (N) Apr. *386
Alkalis—Alkylated compounds by new technique at Tulane (N) June *422
Allethrin—Chemical intermediates from allethrin Mar. *143
Alloys—Materials of construction report Nov. *177
Alumina:
Alumina chemicals plant at Bauxite, Ark. is nearly completed (N) Aug. *118
Combination process at Alcoa's plant makes alumina the modern way (N) Nov. *112
Combination process for increased yield of alumina (flowchart) Nov. *334
Eight processes vie in alumina race (N) Oct. *130
Aluminum:
Alcoa tests power plant at Texas aluminum smelter (N) Feb. *288
Aluminizer Feb. *154
Aluminum bus bars in new chlorine plant Aug. *272
Chemical milling forms aluminum parts (N) July *140
From bauxite to aluminum at new plant (N) Mar. *126
Harvey Machine Co.'s aluminum reduction mill to receive BPA power (N) Nov. *118
Lignite used to generate electric power at Alcoa Rockdale, Texas, works (N) July *116
Materials of construction report, Nov. *185
New process plates nickel directly on aluminum Aug. *248
Porcelain enameled aluminum opens up new markets for aluminum Jan. *136
Amines—Unsaturated amines Feb. *156
Amino acids—Phthalimide made the easy way (chart) June *286
Ammonia:
Allied doubling ammonia capacity at Omaha (N) Oct. *136
Allied expands ammonia-urea capacity (N) July *146
Anhydrous ammonia plant planned for Salt Lake City (N) Jan. *118
Atlantic Refining adds ammonia unit at Philadelphia (N) Nov. *132
Brea Chemicals ammonia plant now operating (N) June *136
Coke oven gas new anhydrous ammonia source (N) Sept. *114
Columbia—Southern enters ammonia production (N) Nov. *114
Gas reformer adds ammonia capacity (N) May *146
Hercules plans more plants (N) June *419
Hercules studies new use for ammonia plant (N) Oct. *120
New process via partial oxidation of methane at Spencer's plant (N) Apr. *126
ODM authorizes more ammonia capacity (N) June *420
Shell Chemical's Ventura plant producing anhydrous ammonia (N) Mar. *120

NOTES—(ed) Editorial. * Illustrated; (N) News; (P.N.) Plant Notebook

NOTES—(ed) Editorial. * Illustrated; (N) News; (P.N.) Plant Notebook

Synthetic ammonia by partial oxidation process flowsheet.....	May	*332
Synthetic ammonia plants (chart) (N)	May	*140
Ammonium nitrate:		
CGCA plant dedicated in Kansas (N)	Nov.	114
New process for ammonium nitrate, Fello & Brown (chart).....	Aug.	*190
Plant in Iceland (N).....	July	*117
Two new plants in Louisiana and Missouri use similar processes (N)	July	140
Ammonium phosphate—Brea Chemicals to construct plant (N).....	Nov.	118
Antibiotic—Castings play vital role in antibiotics. E. A. Schoefer (table)	May	*244
Antioxidant keeps carotene in alfalfa meal (N)	Apr.	386
Aromatics:		
Coal hydrogenation derivatives available for research studies.....	May	158
Petro-xylene in the spotlight.....	Mar.	196
Separating xylenes from non-aromatics (chart)	Feb.	258
Sun Oil Co.'s new petrochemical plant at Marcus Hook, Pa. (N)	Jan.	*142
Vanillin in crude form.....	Aug.	148
Article references kept in notebook. F. J. McDiam (P.N.)	Feb.	296
Asphalt—Albly starts up new asphalt refinery (N)	May	377
Coating with mastics. Seymour & Steiner' (charts)	May	232
Atomic Energy Commission:		
Byproduct uranium compounds extracted for AEC at Florida phosphate plant (N).....	June	*138
Plans six new atomic power reactors (N)	June	418
Uranium recovery from Florida phosphate in AEC exploitation (N)	June	*118
Atomic Power:		
Commercial nuclear power prospects look better—Duquesne plant will help (N)	Sept.	*118
Hortonsphere will house atomic sub tests	Sept.	*50
Inside three atomic factories	Apr.	*130
More reactor-grade zirconium due from Carbundrum Metals (N)	Dec.	*112
Reactor design available from Babcock & Wilcox Co. (N).....	May	352
Automation:		
Better design for bulk handling A. W. Jenike.....	Dec.	*175
Managing the automatic plant. C. E. Knight (chart)	June	*225
Sodium hypochlorite the easy way (N)	Mar.	*128
Award—Engineering Achievement Award to Carbide & Carbon—presentation	Jan.	*150
Plant Notebook award to D. H. Glekieng	Jan.	280
<div style="text-align: center;">B</div>		
Bags—Down with bagging costs. A. J. Burke (charts)	June	234
Batch Operation:		
Calcium cyanamide production made continuous	Dec.	*238
Simplify batch distillation calculations. Chao Kwang-Chu.....	Jan.	168
Sodium hypochlorite the easy way (N)	Mar.	*128
Benzene—Benzene hexachloride process flowsheet	Oct.	*228
Higher benzene yield with new process	Mar.	*270
Beta rays slash H ₂ test time	Jan.	*278
Blood plasma—technology advances. Mar. (tables)	Mar.	180
Boilers—Boiler temperature variations shown by "hot rods" on tubes. Harlan How (chart) (P.N.).....	Aug.	218
Bonding agents—Inventory of new chemicals and materials	Mid-Sept.	96
Book Reviews:		
Actinide elements. Seaborg & Katz	June	431
Annexation of the heavy industrial area of Corpus Christi. S. A. MacCorkle	June	420

The atomisation of liquid fuels.	435
Griffin and Mearns.....	July
Bleaching of pulp. R. S. Hatch	July
Catalysis. Vol. 1. ed P. H. Emmett	Dec.
Chemical methods in industrial hy-	436
giene. Goldman and Jacobs.....	July
Chemical process machinery. E. R.	437
Riegel.....	June
Chemistry of the lanthanons. R. C.	438
Victory.....	Apr.
Collected papers of P. J. W. Debye	439
Compounds with condensed thiophene	440
rings. Hartough & Miesel.....	Dec.
Comprehensive inorganic chemistry	441
ed. Sneed and others. Vol. 1.....	Oct.
Condensed patent practice. N. R.	442
Todd.....	Dec.
Condensed pyridazine and pyrazine	443
rings. J. C. E. Simpson.....	Feb.
Crystal structures. R. W. G. Wickoff	444
Detergency evaluation and testing.	445
J. C. Harris.....	Aug.
Die metallischen werkstoffe des	446
maschinenbaues. E. Bickel.....	Oct.
Dislocations in crystals. W. T. Read,	447
Jr.....	May
Electroanalytical chemistry. J. J.	448
Lingane.....	July
Elementary introduction to molecular	449
spectra. Borge Bak.....	July
Encyclopedia of chemical technology.	450
ed. Kirk & Othmer. Vol. 11.....	Mar.
Experiments in inorganic chemistry.	451
Dodd & Robinson.....	Oct.
Experimental nuclear physics. Vol.	452
2. ed E. Segre.....	Dec.
Fiber microscopy. A. N. J. Heyn	453
Five-membered heterocyclic com-	454
pounds containing nitrogen and	
sulfur or nitrogen, sulfur and	
oxygen. L. B. Bamba.....	Feb.
Flow properties of dispersive sys-	455
tems. ed. Hermans.....	Sept.
Foams, theory and industrial ap- plications. J. J. Bikerman & others	456
General chemistry. Linus Pauling	457
Hydrocarbons from petroleum. F. D.	458
Rossini & others.....	Sept.
Industrial inorganic analysis. R. S.	459
Young.....	Aug.
Infrared absorption spectra. Dobrinar	460
and others.....	May
Inorganic qualitative analysis. Flays	461
& Kenny.....	Sept.
Introduction to chemistry. R. T.	462
Sanderson.....	Sept.
Introduction to drying oil. M. G.	463
Mills.....	Aug.
Introduction to electronic absorption	464
spectroscopy in organic chemistry.	
Gillam & Stern.....	Nov.
Introduction to solid state physics.	465
Charles Kittel.....	Aug.
Materials and processes. J. F. Young	466
Mechanical properties of wood and	467
paper ed. R. Meredith.....	Jan.
Metallurgy of the rarer metals.	468
Vol. 1 A. H. Sully.....	Nov.
Micro and semimicro methods. N.	469
Cheronis.....	Dec.
Molecular spectroscopy. M. W. N.	470
Strandberg.....	Nov.
Modern electroplating. ed. A. G.	471
Gray.....	Mar.
New Gmelin volumes.....	Dec.
Norton story. Mildred Tymeson	472
Organic analysis. ed. J. Mitchell, Jr.	473
& others.....	Feb.
Organic chemistry: a brief course.	474
R. W. Getchell.....	Oct.
Organic coating technology. H. M.	475
Payne.....	Mar.
Organic protective coatings. ed. Von	476
Fisher & Bobalek.....	Dec.
Organic syntheses. C. C. Price.....	May
Paper chromatography. Fred Cramer	477
Photoconductivity in the elements.	478
T. S. Moss.....	Jan.
Physical chemistry. A. J. Rutgers	479
Practical chromatography. Brimley	480
Meredith.....	July
Silicones and their uses. R. R.	481
McGregor.....	June
Soap manufacture. Vol. 1 Davidsohn	482
& others.....	Apr.
Synthetic methods of organic chem-	483
istry. W. Thielheimer.....	Jan.
Technology of synthetic fibers. S. B.	484
McFarland.....	Aug.
Tonerde und aluminium. Fulda &	485
Ginsberg Pt 2 Aluminum.....	Dec.

Tower packings and packed tower design, ed. Max Leva.....	Oct.	367
Vegetable fats and oils, E. W. Eckey.....	Oct.	373
Bubble cap tray—Performance data from experimental towers help it maintain top position (N) (charts).....	May	*128
Three new tray designs.....	May	*173
Buildings—Store-bought buildings.....	Apr.	*140
Butadiene—How to make butadiene-flow sheet.....	Sept.	*306
C		
Calcium—Desugared calcium lignosulfonate.....	May	156
Calcium carbonate—Waste CaCO ₃ put to work by a few simple processing techniques.....	July	166
Calcium cyanamide—Batch operation process made continuous.....	Dec.	*238
Calculations:		
Algebraic trick facilitates computation, D. S. Davis (P.N.).....	June	252
Hoppers by calculation, C. A. Lee.....	Dec.	*181
How to use the new generalized compressibility charts, Nelson & Obert.....	July	203
Log-log plot speeds up finding circle areas, G. J. Welas (P.N.).....	Feb.	*232
Moisture content chart speeds humidity calculations, J. T. Hogan (P.N.).....	May	216
Orifice meter computations for gas flow speeded up with nomograph, C. J. Carmichael Jr. (P.N.).....	June	256
Carbon—Materials of construction feasibility calculations.....	Nov.	194
Porous carbon.....	Nov.	*140
Carbon black:		
Aerosols boost production (chart).....	June	288
Continental Blacks, Inc. opens oil-black plant at Ponca City, Okla. (N).....	AUG.	120
Tire mileage increased by carbon black.....	Jan.	140
Carbon dioxide—Improved process for CO ₂ production (chart).....	May	264
Catalysis:		
Alumina catalyst.....	Nov.	142
Chemical engineering fundamentals, T. E. Corrigan Catalysis and adsorption Pt 1.....	Nov.	236
Errecting an improved cat cracker Pt 2.....	Dec.	199
Errecting an improved cat cracker (N).....	Apr.	*128
Fixed-bed catalytic reformer developed by Socony-Vacuum (N).....	May	361
Scale model used in building catalytic cracking unit (N).....	Apr.	*128
Silver salts used in water purification (N).....	June	120
Simple new system turns cat cracker waste heat to steam (N).....	Apr.	*114
Ultraformer for Standard Oil refinery (N).....	Mar.	116
Caustic soda:		
Anhydrous caustic soda finished in Dowtherm-heated evaporators superseding batch finishing, Badger & Standiford.....	Feb.	*193
Chlorine-caustic plant built at Montague, Mich. for Hooker Electrochemical (N).....	June	*126
New plants and facilities under way 1953-report (table).....	Jan.	171
Cellulose:		
Cellophane plants expansion in U. S. and Australia (N).....	July	134
Chemical cellulose made by continuous digester (chart) (N).....	May	*716
Derivative of cellulose for thickening.....	Feb.	160
Premium cellulose with new process (N).....	Sept.	*142
Cements:		
Cement combination gives chemically resistant pipe joint (chart).....	May	164
Epoxy for cements and coatings, Seymour & Steiner (table & charts).....	Apr.	244
Materials of construction report.....	Nov.	198
Ceramics—Ceramics in solution.....	Dec.	148
Porcelain enameled aluminum opens up new markets for aluminum.....	Jan.	*136
Chemical Engineering:		
Engineering for today's chemical plants, R. P. Genereaux.....	Apr.	180

- Micro-interferometer, a new chemical engineering tool. R. E. Sugg. Mar. *216
Put dimensional analysis to work. J. E. Pierce (chart & tables). Apr. *186
- "Chemical Engineering":**
Chemical Engineering Achievement Award to Carbide & Carbon presentation. Jan. *150
Inventory issue. Mid-Sept.
A new reference service (ed). Sept. 167
- "Chemical Engineering Refresher":**
Chemical engineering fundamentals. T. E. Corrigan (charts & tables). Nov. 236 Pt 2 Dec. 198
Catalysis and adsorption. Pt 1 Mar. 222
Chemical equilibrium. Pt 1 Mar. 222
Pt 2 Apr. 212 Pt 3 May 202
Pt 4 June 244
Introduction to reaction kinetics. July 230
Kinetics of homogeneous reactions. Pt 1 Aug. 208 Pt 2 Sept. 210
Pt 3 Oct. 210
Chemical engineering fundamentals. Compression and expansion. Corrigan & Johnson. Pt 2 Jan. *210
Pt 3 Feb. *212
- "Chemical Engineering Reports":**
Binary distillation. A. J. Teller (charts). Sept. *168-188
Conveyors and elevators. H. L. Straube (charts & tables). Apr. *195-210
Engineering with models. Bowen & Murphy. Aug. *175
Inventory issue. Mid-Sept.
Ion exchangers. Neven & Phillips (charts & tables). Oct. *161-180
Lubrication. Clark, Fuller & Gleber (charts & tables). July *211-228
Mixing—the universal operation (six parts). C. S. Quillen (charts & tables). June *177-224
Plants and processes. Jan. *169-208
16th biennial materials of construction report. Nov. 172-234
- Chemical Engineers:**
Dodge, Barnett F. Feb. *274
Field, Crosby. Jan. *298
Furnas, Clifford C. Sept. *320
Nichols, Thomas S. Aug. *322
Olin, John M. Oct. *346
Persons, Ralph C. Nov. *346
Rathbone, M. J. Apr. *368
Sparks, William J. Mar. *360, May *362
Volwiler, Ernest H. Oct. *350
Wartman, Frank S. Mar. *366
- Chemical Industry:**
Armour product line to be made in Britain (N). Dec. 136
Business in 1954 will pass most expectations. Apr. 355
The challenge of '54. Mar. 177
Charts trace chemical end. Sept. 317
Demand is up, supply keeps pace (charts & tables). Mar. 190
Depreciation dons a new look. Chartener & Thompson (chart). Dec. 171
Domestic problems vex Washington. Mar. *184
Fall upwarping expected. Oct. 348
Growing merger roster gets three additions (N). Nov. 114
Inventory of new chemicals and materials (table). Mid-Sept. 94-142
New processes and technology. 1952-53—report (tables). Jan. 187-208
Poland eyes world chemical markets. Mar. *352
Profits take upward swing—for most (charts & tables). Mar. 187
Should you plan to expand in 1955? W. H. Chartener. Dec. 327
South Africa's chemical industry on rise (N). Dec. 116
When does it really pay you to expand? R. P. Ulin (chart). Apr. 347
Why take a job in the chemical industry? W. H. Chartener (chart). Nov. 341
Zirconium chemicals—where you can use them. Mar. *138
Chemical Progress Week planned for May 17-22 (N). May 374
Chlorimet 2 is a corrosion resistant alloy. W. A. Luce (tables). Feb. *246
Chlorimet 3. W. A. Luce (chart & table). Mar. 354
Chlorination—Continuous chlorination is key to benzene hexa-chloride process—flowsheet. Oct. *338
- Chlorine:**
Aluminum bus bars in new chlorine plant. Aug. *372
Army chlorine plant sale okayed by Senate (N). May 377
Beam handles chlorine cylinders. P. C. Ziemke (P.N.). Nov. *248
Chlorine-caustic outlook bright (chart). Mar. 193
Chlorine-caustic plant built at Montague, Mich. for Hooker Electrochemical (N). June *126
Design of Hooker cells facilitates mass production of chlorine cells. Feb. *128
General Aniline plans more chlorine-caustic (N). Oct. 136
General Aniline plans plant near Linden, N. J. (N). July 118
Modernization of Velsicol plant (N). Mar. *118
Solvay chloro-methane plant started up (N). Dec. 116
Chlorine dioxide—Pennsalt offers pulp mills chlorine dioxide bleaching (N). Feb. 385
Stable, nonexplosive. Nov. 379
Chlorobenzene—New data on pure chlorobenzene isomers (chart). Apr. 164
- Cleaning:**
Bubble-plate towers cleaning methods. Apr. 258
Phosphate cleaner-coater for heavy parts. May 158
Rust remover. Dec. *148
Styrene cleaner. Apr. 160
- Coal:**
Coal chemicals nurse new ideas—annual review (table). Mar. 199
Feeder for coal gasification. Walter Cooney. Nov. 162
Hydrogenation derivatives available for research studies. May 158
Lignite used to generate electric power at Alcoa Rockdale, Texas works (N). July *116
Low-temperature coal distillation. Jan. *268
Oil-from-coal plant in South Africa (N). June 414
Synthesis gas process to be tried at Du Pont (N). Mar. *114
Technology advances. Mar. 179
- Coatings:**
C-oll petrochemical. Sept. *148
Ceramics in solution. Dec. 148
Chlorinated rubber. Apr. 150
Christmas trees provide growing chemical market. Jan. *382
Coating with mastics. Seymour & Steiner (charts). May 232
Dielectric coating. Aug. 146
Epoxy for cements and coatings. Seymour & Steiner (table & charts). Apr. *244
Inventory of new chemicals and materials (table). Mid-Sept. 112
Metallizing may be for you. Howard Vanderpool (chart). July *189
Phosphate cleaner-coater for heavy parts. May 158
Pipeline enamel. Sept. *152
Polyamide-epoxy resins have high flexibility. June 152
Rubber coating for glass cloth. Dec. *148
Stripable coating. Apr. *160
Ultraviolet absorbers act as protective coatings and stabilizers. July 154
Vinyl acetate—Air Reduction ups aims (N). Aug. 120
Vinyl coatings protect industrial equipment. June 150
White-pigmented vinyl coating sprayed on permits paint and enamel to be peeled off. Oct. *148
Why go to thick protective coatings? R. R. Pierce (charts). Apr. *177
Coke and coke products—New plants and facilities under way 1953-report (table). Jan. 172
Combustion—Heat controlled for calciners. W. G. Bauer (charts). May *193
Shredded bark gives high combustion (N). May 380
Communications—How to keep track of your men and jobs (N). Sept. *138
Compressor and expansion. Corrigan & Johnson Pt 2 Jan. *210 Pt 3 Feb. *212
- Compressors:**
Air ejectors cheaper than steam. E. D. Berkeley (charts). Nov. *164
Centrifugal compressor performance data for propane. Corrigan & Johnson. Feb. *209
How to compress explosive gas with zero loss through shaft seals (chart) (P.N.). Aug. 220
How to use the new generalized compressibility charts. Nelson & Obert (charts). July 203
Powered by gas-filled motor. Aug. *270
Tricks for gas cylinder users. E. J. Erwood (P.N.). May 214
- Concentration—Freeze concentration process eliminates vacuum (N). Sept. 142
Magnesium concentration from sea water by ion exchange. July 282
Concrete—Iron-chip veneer guards concrete in flooring process. May *160
Condensation—Cooler-condenser wall temperatures. J. R. Cary (chart). Nov. 161
- Construction:**
Capital spending reaches peak—plant capacity increasing (charts & tables). Oct. 182
Erecting an improved cat cracker (N). Apr. *128
Inventory of new plants and facilities—482 major new U. S. chemical projects. Mid-Sept. 44-64
New plants and facilities under way 1954—report (tables). Jan. *169-186
Weather forecasts save construction dollars for Du Pont (N). Mar. *124
Contactor—Fluid contactor features flexible dappers. Dec. *242
- Containers:**
Bulk shipping containers of rubber and fabric. Oct. 148
Phosphate treatments for better containers. Sept. 238
Continuous processing—Anhydride production process cuts isomerization. Nov. *278
Anhydrous caustic soda finished in Dowtherm-heated evaporators superseding batch finishing. Badger & Standiford. Feb. *183
- Controls:**
Computers—save time, money. Ascher Opler. Oct. *197
Heat controlled for calciners. W. G. Bauer (charts). Mar. *193
Inventory of new equipment and accessories (tables). Mid-Sept. 168
Pressure switch serves as level control in tank. R. Volterra (P.N.). Feb. *232
- Conveyors—Conveyors and elevators.**
H. L. Straube (report) (charts & tables). Apr. *195-210
Why use pneumatic conveyors? W. G. Hudson (tables). Apr. *191
Cooling solutions by flash cooling. A. P. Massa (P.N.). Jan. *226
- Cooling towers:**
Fluor's cooling tower research (N). Dec. *126
How to design gas-cooling towers. G. H. P. Bras. Dec. *191
Wood prevention decay gives towers new lease on life (N). Apr. *120
Copper—Materials of construction report. Nov. 186
- Corrosion:**
Accelerated tests aid valve selection. J. Bolton (table). Nov. 268
Butyl rubber—a material coming up fast. J. P. McNamee. Oct. *238
Castings play vital role in antibiotics. E. A. Schoefer (table). May 244
Cement combination gives chemically resistant pipe joint (chart). May 184
Chlorimet 2 is high strength and corrosion resistant alloy. W. A. Luce (table). Feb. *246
Chlorimet 3. W. A. Luce (chart & table). Mar. 354
Coating with mastic. Seymour & Steiner (charts). May 232
Corrosion data charts—36 materials vs 48 corrosives—report. Nov. 202
Corrosion inhibitor checklist. Dec. 370
Corrosion of nickel cast irons in soils. Nov. 270
Corrosion resistant diverter splits reflux and product flows. J. J. Krauskopf (chart) (P.N.). July 242
Epoxy for cements and coatings. Seymour & Steiner (table & charts). Apr. 244
High silicon irons as materials of construction. W. A. Luce (tables). Jan. *246
Lead linings fastened by stud driver. Feb. *252
Metallizing may be for you. Howard Vanderpool (chart). July *189
Natural rubber, GR-S vs corrosion. J. P. McNamee. Aug. *234
New ideas for handling sulfuric. Hendel & Pateman (chart). July 209
Nitrile rubber for oils and solvents. J. P. McNamee. Sept. 230
Photograph and corrosion rate. H. R. Friable (chart) (P.N.). June 266

Polytrifluorochloroethylene for corrosive service. J. A. Jupa (tables).....	June	*272
Rust remover.....	Dec.	*148
Saran for corrosion resistance. (chart & table).....	July	*264
Selecting valve materials to combat corrosion.....	Sept.	*198
15th biennial materials of construction report.....	Nov.	172-234
Why go to thick protective coatings? R. R. Pierce (charts).....	Apr.	*177
Costs:		
Air ejectors cheaper than steam. E. D. Berkeley (charts).....	Nov.	*164
Better design for bulk handling. A. W. Jenike.....	Dec.	*175
Capital spending reaches peak—plant capacity increasing (charts & tables).....	Mar.	182
Computers—save time, money. Ascher Opler.....	Oct.	*197
Cost estimation index. J. B. Weaver.....	Oct.	185
Cut operating cost with low-cost survey.....	Jan.	242
Demand is up, supply keeps pace (charts & tables).....	Mar.	190
Down with bagging costs. A. J. Burke (charts).....	June	234
"Engineered maintenance" is the new look in maintenance. Henry Shockley (chart).....	Dec.	187
Make the most of capital rates. Lawrence Lynn (tables).....	Apr.	175
Manganese dioxide process may save money (N).....	Oct.	*123
Next time use capitalized costs. F. C. Jelen (tables).....	Feb.	*199
Profits take upward swing—for most (charts & tables).....	Mar.	187
Six-tenths factor nomograph shows costs at different capacities. A. B. Babcock, Jr. (chart) (P.N.).....	July	244
Weather forecasts save construction dollars for Du Pont (N).....	Mar.	*124
When does it really pay you to expand? R. P. Ulin (chart).....	Apr.	347
Cotton:		
Chemical cellulose made by continuous digester (chart) (N).....	May	*116
Cyanoethylation process enters the pilot plant (N).....	Dec.	*124
Weed killer is safer to use near cotton.....	May	160
Crystallization:		
Continuous fractional crystallization—technology advances.....	Mar.	*181
Crystallizer design approaches ideal.....	Dec.	240
Fractional crystallizer.....	Feb.	*260
Cutting fluids—Coolant for machine tools.....	Mar.	146
Cyanides—Killed by new waste treatment plant of Oneida, Ltd. (N).....	July	*142
D		
Dehydration—Hydrazine sheds its water content.....	Sept.	*262
Depreciation—Evaluate your depreciation charges. Hartogensis & Allen.....	Feb.	*195
Design:		
Engineering for today's chemical plants. R. P. Genereaux.....	Apr.	182
Novel ball mill design.....	Sept.	*258
Reactor design solves problem of exothermic reaction between immiscible liquids (charts).....	July	276
Vapor-phase reactor design employs fluidized-bed technique (chart).....	Aug.	252
Detergents:		
Alkyl aryl sulfonate—synthetic detergent flowchart.....	June	372
Industrial detergent.....	Dec.	146
Low-suds detergents.....	Jan.	140
Non-soap detergent.....	Oct.	148
Oil well opener.....	Dec.	146
Salt-free detergents—processing with liquid SO ₂ (chart) (N).....	Aug.	124
Dimensional analysis—Putting it to work (chart & tables). J. E. Pierce.....	Apr.	*185
Distillation:		
Binary distillation report. A. J. Teller (charts).....	Sept.	*163
Bubble-caps helped by performance data from experimental towers (N).....	May	*128
Estimating exact plate efficiencies of bubble-cap fractionating towers (N) (charts).....	Mar.	122
How to distill heat-sensitive compounds (P).....	Apr.	*258
How to make butadiene-flowchart.....	Sept.	*306
How to modify plate columns for high operating rates. Leonard Steber (P.N.).....	Mar.	*236
Improved control gives maximum boil-up in distillation. Leonard Steber (P.N.).....	Jan.	*224
Isopropyl alcohol impurities removed by high-pressure distillation.....	Feb.	*262
Kaskade trays threaten bubble-caps in towers (N).....	May	*124
Low-temperature coal distillation.....	Jan.	*268
Novel tray arrangement for distillation tower.....	Dec.	*242
Sieve trays. D. C. Lee, Jr. (charts).....	May	*179
Simplify hatch distillation calculations. Chao Kwang-Chu.....	Jan.	163
Wire mesh reduces tower entrainment.....	Nov.	278
Drives—How to get an agitator drive in a hurry. P. N. Cheremisinoff (P.N.).....	Oct.	*224
Drugs:		
Annual review.....	Mar.	*205
New plants and facilities under way 1953—report (table).....	Jan.	177
Phosphorylation of insoluble riboflavin with chlorophosphoric acids (N).....	Nov.	*120
Drums—Steam-heated drum melter saves time and money. Paul Vandeven (P.N.).....	Oct.	*222
Drying:		
Bypass improves operation of hot air tray dryers. P. I. Johnson (chart) (P.N.).....	May	214
Dryers prepare lignite for use as fuel in electric power generators in Alcoa, Rockdale, Texas works (N).....	July	*116
Fluidized crystal dryer pays off for Carey Salt. C. W. Jones.....	Jan.	*65
Infrared drying.....	Aug.	254
Sorption in gas and air drying. F. M. Waterhouse (charts & tables).....	June	237
Spray dryer boasts capacity hike.....	July	278
Turbulent flow dryer boosts drying rates.....	Mar.	266
Waste CaCO ₃ put to work by a few simple processing techniques.....	July	156
Dusocynates, new.....	Dec.	144
Dust and fume handling:		
DuPont's varnish plant undertakes three-point fume control program (N).....	Sept.	*124
Dust collectors tested in field. Dennis & others (tables).....	May	187
Foam screen licks a dust control poser (chart).....	July	278
Inventory of new equipment and accessories (table).....	Mid-Sept.	156
Los Angeles study shows cars—not industry biggest smog source (N).....	Oct.	*138
NYU model traces industrial smoking habits (N).....	Sept.	*136
Oil spray helps control pollution (N).....	June	417
West Coast oil companies issue statements telling public of their efforts to curb air pollution (N).....	Aug.	132
Dyes—Elimination of use of dyes with new coloring process (N).....	Aug.	132
New plants and facilities under way 1953—report (table).....	Jan.	178
E		
Economics:		
American dip not followed abroad (chart).....	Aug.	214
Chemical profits light up the sky (table).....	May	247
Depreciation done a new look. Chartener & Thompson (charts).....	Dec.	171
Inventories to be more normal by midyear.....	May	348
Should you plan to expand in 1955? W. H. Chartener.....	Dec.	327
We modernize—or else! (tables).....	May	339
What's your name for our present economy?.....	July	334
Editorials:		
The challenge of '54.....	Mar.	177

New process plates nickel directly on aluminum.....Aug. 348
Nitrate—Brea Chemical to produce nitrate and nitrate (N).....Apr. 384
Nitrogen—ODM has big oversubscription on new nitrogen goal (N).....July 134

Nomographs:

- Accurate estimates of enthalpies of sulfur compounds by nomograph. D. S. Davis (P.N.).....Apr. 224
Boiling points of halogenated paraffins found with new nomograph. J. T. Hogan.....Sept. 226
Corrosion rate found with nomograph. H. R. Friable (P.N.).....June 266
Equation for binary mixtures solved with nomograph. J. W. Colton (P.N.).....May 216
- Equipment costs at different capacities shown with six-tenths factor nomograph. A. B. Babcock Jr. (P.N.).....July 244
Film coefficient for exterior tubular coolers. D. S. Davis (P.N.).....Nov. 250
Flow rates over weirs of various shapes. Jack Lowenstein (P.N.).....Oct. 224
Log mean temperature difference found by high speed chart. Gregory Theoclitus.....July 246
Moisture content of samples speeded by nomograph. Michael Auto (P.N.).....Jan. *226
Orifice meter computations for gas flow speeded up with nomograph. C. J. Carmichael Jr. (P.N.).....June 256
Sizing of jacketed vessels simplified by nomograph. Brown & Burdick (charts).....Mar. 318

- Solve your humidity problems. Stuart Stern.....Feb. *188
Vapor pressures of phthalate esters given by nomograph. D. S. Davis (P.N.).....Jan. *228
Water rate of heat exchangers. Benjamin Smith (P.N.).....Feb. *280
Water solubility of helium hydrogen, nitrogen and oxygen. D. S. Davis (P.N.).....Feb. *228
Nucleonics—Maintenance problems in nuclear chemicals.....June *230

O

- Odor control—Odors eliminated by scrubber and burner (N).....May 378
Surplus wood stove tank converted to efficient acid fume scrubber (chart) (P.N.).....June 252

Oils and Fats:

- Animal fats in feed zoom.....July 336
Annual review—fats and oils, the shift is from inedibles to edibles (charts & tables).....Mar. 200
Beef tallow makes steel industry independent of African palm oil imports.....July 154
Bleed tubes controls oil draw-off (P).....Mar. *266
Chemicals feed on fats—technology advances.....Mar. 178
Cottonseed oil yield boosted by extraction-filtration process (flow-sheet).....July *324
Deodorizing vegetable oils.....Oct. *256
Inventory of new processes and technology (table).....Mid-Sept. 66
New processes and technology, 1952-53-report (table).....Jan. 187
Oil sludge prevention.....Oct. 148
Packaged oilseed filtration-extraction process (N).....Sept. 130
Recovering solids from anthracene oil.....Sept. *260
Shale—Bureau of mines research to continue (N).....June 138
Shale oil recovery by water digestion.....June 290
Tall oil market is growing (N).....Feb. 387
Tall oil refining plants expanding (chart) (N).....June 133
Tall oils are plentiful and promising.....June 142
Olefin purification by complex formation method.....July 282
Olefins—Novel approach to polymerizing olefins.....Dec. *240
Ore classification—Float-sink method provides own medium (chart).....Aug. 254

Organic chemicals:

- American Cyanamid dedicates petrochemical plant near New Orleans (N).....Aug. 120
Coal hydrogenation derivatives available for research studies.....May 158
Gulf Oil Corp.'s iso-octyl alcohol unit at Port Arthur, Tex., completes year of operation (N).....Aug. *113
Inventory of new chemicals and materials (table).....Mid-Sept. 102
- Organics:**
Inventory of new plants and facilities (table).....Mid-Sept. 56
Inventory of new processes and technology (table).....Mid-Sept. 68
New plants and facilities under way 1953-report (table).....Jan. 181
New processes and technology in fine organics, 1952-53-report (table).....Jan. 195
New processes and technology in heavy organics, 1952-53-report (table).....Jan. 197
Organic sequestrants.....Feb. 160
Stabilizer for organics.....Apr. 166
Oxalic acid flow-sheet.....Apr. *340

Oxidation:

- Acetylene process, partial oxidation of methane, developed in Germany, available for license (N).....Nov. *116
BASF acetylene plant—partial oxidation of methane to acetylene (N).....Feb. *118
Direct oxidation process for ethylene oxide—at Orange, Tex., plant (N).....Aug. *130
Heat controlled for calciners. W. G. Bauer (charts).....May *193
Hydrogen peroxide made by chemical oxidation in new Solvay process (N).....July 118
Improved process for CO₂ production (chart).....May 254
Synthetic ammonia by partial oxidation process (flow-sheet).....May *232
Oxidizing agent.....Apr. 160

P

- Packaging—Inventory of new equipment and accessories (tables).....Mid-Sept. 202
Pressure-sensitive tape.....Sept. 148
Packed towers—welding reducers make improvement in packing support plate. Honnold & Sweeney (P.N.).....Apr. *228

Paints:

- Alkalinity curbed in new pigment formulation.....Oct. 266
Antirust paint.....Feb. 152
High-heat resistant paint.....Dec. 144
Iron oxide pigments for brighter auto finishes.....May 256
Jelly paints with storage and application virtues.....July 154
Nonskid floor paint.....Jan. 142
Odorless paint aid.....Mar. 146
Odorless thinners: new muscle for oil paint?.....Aug. *142
Polyvinyl acetate paint—booming use seen.....June 383
Rubber masonry paint.....Nov. 142
Rubber masonry paint looks towards house exteriors in expansion drive.....Oct. *142
Universal pigments.....Dec. *160
Water resistant and freeze-thaw paint chemicals.....June 148
Paraffin—Nomograph finds boiling points of halogenated paraffins. J. T. Hogan (P.N.).....Sept. 226
Paraformaldehyde—rise to fame.....Mar. *142
Paraxylene—Sinclair Chemicals plant begun (N).....Nov. 118
Paste mixing. C. S. Quillen (charts). June 197
Patents—Checklist of new equipment and process patents. Jan. 272, Feb. 267, Mar. 272, Apr. 264, May 258, June 292, July 284, Aug. 260, Sept. 254, Oct. 248, Nov. 282, Dec. 244
Peroxide—Phenol and acetone made from cumene hydroperoxide.....June 288
Sodium peroxide goes off the wagon (chart).....July 282
Pesticides—Chemical pesticides go forward—annual review (chart).....Mar. 306
New plants and facilities under way 1953-report (table).....Jan. 178

Petroleum:

- Alumina catalyst.....Nov. 142
C-oil petrochemical for better surface coatings.....Sept. *148
Canadian Petrofina, Ltd., to begin new oil refinery (N).....July 118
Catalytic cracking unit-scale model used in construction (N).....Apr. *138
Clean sulfuric acid from petroleum refinery sludge (N).....Jan. *114
Erecting an improved cat cracker (N).....Apr. *128
Expansion spending for 1954 will equal last years (N).....Nov. 108
Improved cooking processes to slash refining costs (N).....Jan. *116
Inventory of new plants and facilities (table).....Mid-Sept. 48
Inventory of new processes and technology (table).....Mid-Sept. 82
New plants and facilities under way 1953-report (table).....Jan. 174
New processes and technology, 1952-53-report (table).....Jan. 201
New system turns cat cracker waste heat to steam (N).....Apr. *114
New-type decarbonizer boosts gas oil yield (N).....Nov. 130
1953 petroleum market estimate (table).....Feb. 360
Oil boom continues despite rising inventories—annual review.....Mar. *196
Oil sludge prevention.....June 148
Petrochemical forecast. W. H. Chartener (chart).....Oct. 345
Polyethylene from oil gas (N).....Mar. *134
Standard Oil completes new refinery (N).....Dec. 136
Sun Oil Co., Ltd., oxidizes waste to combat pollution (N).....Feb. *120
Technology advances.....Mar. 181
Texaco to build six platformers (N).....July 140
Thermoform cat cracker for Bay Refining, Michigan (N).....Jan. 130
Tide Water Associated Oil's Avon refinery improved (N).....Jan. *114
Tide Water plans all new oil refinery (N).....Aug. 132
Two 25,000 barrel a day refineries planned (N).....Sept. 140
Ultraformer for Standard Oil refinery (N).....Mar. 116
World's first fluid coker—Fluor Corp., Ltd., Los Angeles (N).....Jan. *130

Phenol:

- Phenol and acetone made from cumene hydroperoxide.....June 288

- Phenol-from-cumene plant goes on stream (N).....May 379
- Today's processes are compared. W. H. Tonn Jr. (chart & tables) Nov. 157
- Phosphates:**
- Biggest feed phosphate installation in world at new Florida plant (N) June *138
- Florida operations reach new high with start-up of Davison Chemical Corp. concentrated superphosphate plant (N).....July *132
- Monsanto turning out higher strength phosphate (N).....Feb. 114
- Phosphate cleaner-coater for heavy parts.....May 158
- Production of nitrophosphate fertilizer from leached-zone ore could multiply uranium recoverable from Florida phosphate deposits (table) (N).....Dec. 130
- Treatment for containers.....Sept. 238
- Triple superphosphates produced in Utah.....Jan. 118
- Uranium recovery from Florida phosphate in AEC program (N).....June *118
- Utah plant (N).....Apr. *144
- Phosphoric acid—New phosphoric acid plant uses novel rotating-tray filter (charts) (N).....June *128
- Two solutions to one problem—new plants (N).....Dec. *132
- Phosphoric anhydride process (N) Sept. *116
- Phosphorus:**
- Anodes improved by addition of phosphorus (N).....Oct. *124
- Gasoline additive, a haloalkyl phosphorus compound (N).....Feb. 389
- New plants and facilities under way 1953-report (table).....Jan. 178
- Phosphoric: two solutions to one problem—new plants (N).....Dec. *132
- Phosphoric anhydride process (N) Sept. *116
- Phthalimide made the easy way (chart)** June 286
- Pigments—Iron oxide pigments for brighter auto finishes.....May 256**
- New plants and facilities under way 1953-report (table).....Jan. 178
- Pipes:**
- Better way to test piping after repairs (chart) (P.N.).....Aug. 222
- Cement combination gives chemically resistant pipe joint (chart).....May 154
- Emergency cleaning of piping. E. J. Erwood (P.N.).....Feb. 230
- Enamel for pipe lines.....Sept. *152
- First cross-country plastic pipeline in service (N).....Jan. *120
- Inventory of new equipment and accessories (tables).....Mid-Sept. 214
- Packed joints simplify piping to equipment in place. Teh-Shi Chu (chart) (P.N.).....Aug. 220
- Polyethylene pipe—simple tool makes lap joints. Pledger & Ryan (P.N.).....Mar. *238
- Ship-to-shore unloading of liquefied gases.....Jan. *288
- Plant Notebook:**
- Accurate way to measure flow with weirs in open channels. Leonard Steber (P.N.).....Dec. *214
- Again, the hatchet planimeter. A. T. Williamson.....Oct. 226
- Algebraic trick facilitates computation. D. S. Davis.....June 352
- Automatic metering system charges liquid to bank of reactors. Smith & Ludka (chart).....June 254
- Beam handles chlorine cylinders. P. C. Ziemke (P.N.).....Nov. *248
- Better way to test piping after repairs (chart).....Aug. 222
- Bypass improves operation of hot air tray dryers. P. L. Johnson (chart).....May 214
- Chart aids estimation of latent heats of vaporization. Lemlich & Hoke.....Apr. 226
- Chart corrects pump characteristics for changed operating speed. M. Rhoden.....Nov. 250
- Chart gives vessel wall and weight for estimating. R. B. Reed.....Jan. *228
- Charts give flow rates over weirs of various shapes. Jack Lowenstein.....Oct. 224
- Charts give water solubility of helium, hydrogen, nitrogen and oxygen. D. S. Davis.....Feb. *228
- Constant-level mixer provides diluted process liquids. W. S. Gorman, Jr. Nov. *254
- Control valve serves as flow meter with hundred-to-one range. A. H. McKinney (chart).....Sept. 222
- Corrosion resistant diverter splits reflux and products flows. J. J. Krauklis (chart).....July 242
- Don't be fooled by an irregular hopper. C. A. Lee (chart).....May 218
- Easy-to-build liquid cut-off makes scale automatic. B. H. Sanders.....Dec. *214
- Flash cooling is handy for quick cooling of solutions. A. P. Massa. Jan. *226
- For reliable control, keep your solenoid valves in tune. P. C. Ziemke.....Aug. 218
- Here's a tip for emergency cleaning of piping. E. J. Erwood.....Feb. 230
- Home-made hatchet planimeter gives reliable results. J. T. Hogan. Apr. *226
- "Hot rods" on tubes show boiler temperature variations. Harlan How (chart).....Aug. 218
- How to check performance of your spiral chutes. Ku & Tao.....Dec. *218
- How to compress explosive gas with zero loss through shaft seals (chart).....Aug. 230
- How to ret ax packing into pump stuffing box. K. D. Turnbull (chart) Aug. 222
- How to get an agitator drive in a hurry. P. N. Cheremisinoff.....Oct. *224
- How to improve agitation of heavy pulp suspensions. R. W. Moore. Mar. *238
- How to modify plate columns for high operating rates. Leonard Steber.....Mar. *236
- If you keep article references—here's a simpler method. F. J. McAdam.....Feb. 226
- Improved control gives maximum boil-up in distillations. Leonard Steber.....Jan. *224
- Instrument set-up gives continuous record of heat transfer rate. Leonard Steber.....Sept. *224
- Log-log plot speeds up finding circle areas. G. J. Weiss.....Feb. *232
- Log mean temperature difference found by high speed chart. Gregory Theoclitus (chart).....July 246
- Moisture content chart speeds humidity calculations. J. T. Hogan (chart) (P.N.).....May 216
- More on hatchet planimeter. J. W. Langhaar (chart) (P.N.).....July 244
- Move tanks to transport product.....Mar. *240
- New charts help obtain convection heat transfer coefficients. H. T. Bates.....Nov. 252
- Nomograph finds corrosion rate. H. R. Frisbie (chart).....June 256
- Nomograph gives accurate estimates of enthalpies of sulfur compounds. D. S. Davis.....Apr. 224
- Nomograph gives film coefficient for exterior tubular coolers. D. S. Davis.....Nov. 250
- Nomograph gives water rate of heat exchangers. Benjamin Smith. Feb. *230
- Nomograph solves equation for binary mixtures. J. W. Colton (chart) May 216
- Nomograph speeds calculation of moisture content of samples. Michael Auro.....Jan. *226
- Nomograph speeds up orifice meter computations for gas flow. C. J. Carmichael, Jr. (chart) (P.N.) June 256
- Novel coil supplies heat to cone bottom storage tank. Grossel & D'Aulerio.....Nov. 248
- O-ring "sandwich" makes manometer for high pressures. R. D. Peak.....Dec. *212
- Packed joints simplify piping to equipment in place. Teh-Shi Chu (chart).....Aug. 220
- Pressure switch serves as simple level control. R. Volterra.....Feb. *232
- Pressure vessel level read by novel magnetic gage. Massimo Rosciarelli.....Nov. 254
- Pulsating sampler for liquid stream averts plugging by solids. G. E. Schumann.....Feb. *226
- Quick estimation method for tube wall temperature. Y. S. Tang.....Dec. 216
- Safety siphon is simple, starts automatically. William Babbitt.....Mar. *238
- Simple tool makes lap joints in polyethylene pipe. Pledger & Ryan (P.N.).....Mar. *238
- Simple venturi jet adds to the efficiency of pump mixing. Stanley Yokell.....Apr. *224
- Six-tenths factor nomograph shows costs at different capacities. A. B. Babcock, Jr. (chart).....July 244
- Sparks from steam.....Mar. 238
- Steam-heated drum melter saves time and money. Paul Vandeven.....Oct. *222
- Surplus wood stove tank converted to efficient acid fume scrubber. J. E. Weiler (chart).....June 252
- Tricks for gas cylinder users. E. J. Erwood.....May 214
- Vapor pressures of phthalate esters given by nomograph. D. S. Davis Jan. *228
- Weighting arrangements add pressure to laboratory gas holders. Josh & Pal.....Sept. *224
- Welding reducers make improvement in packing support plate. Honnold & Sweeney.....Apr. *220
- Winner of 1953 Plant Notebook award Jan. 239
- Plants—Inventory of new plants and facilities (tables).....Mid-Sept. 44-64**
- We modernize.....or else! (tables) May 339
- Plasticizers:**
- Heat-stable plasticizer from new process.....Mar. *268
- Low-temperature plasticizers.....Feb. 154
- Pigmented and colored vinyl plasticizer.....Feb. 150
- Plasticizing polyol.....Apr. 154
- Polyvinyl chloride plasticizer.....Apr. 158
- Polyvinyl plasticizers.....Mid-Sept. 142
- Reichhold plans plasticizer production (N).....May 372
- TOF to be more available with completion of Carbide and Carbon plant at S. Charleston, W. Va. (N).....Apr. 120
- Vinyl compounds plasticizers.....May 158
- Vinyl copolymers with built-in plasticizer that controls elasticity May 154
- Plastics:**
